bottom - always select the most recent.

Determination of charges to combine/split will be needed from 837/UB04 data. ER and CT/ MRI are all together. All the other charges can be pushed to the second claim.

handling/solutioning. Once initial claim is submitted, it will populate as translated. Will need to clone original claim to create a second "translated" claim.

HIM will add charges and we would delete claim and re-add the split claims/charges/etc
